

SOME WEDDING TIPS TO THINK ABOUT

WHEN CHOOSING YOUR PHOTOGRAPHER AND/OR VIDEOGRAPHER.

- 1 RESEARCH:**
Do as much research as possible to determine what style and quality of work you like and want to invest in. After scouting, make a short list of photographers / videographers and have a thorough look at their work and what experience they have.
- 2 BUDGET:**
Decide how much you would like to invest in capturing your special moments on your wedding day. Keep in mind that everything else like the dress, the cake or the flowers will be temporary. Your photos or video will be the best reminder of your wedding day and that's why you should invest more in this service.
- 3 QUALITY:**
Your photographs / video should be works of art. Have a look at the service provider's work and see if the work "speaks" to you. When it comes to video, there is a big difference between a videographer who just films the event with fancy equipment and a videographer who produces a cinematic motion artwork. Make sure you know what you're getting.
- 4 TECHNICALITIES:**
Find out if the photographer or videographer works with assistants. Ask about the type of equipment that will be used and let them explain what they will need from you on the day.
- 5 CHEMISTRY:**
Once you have a shortlist of service providers that fits your requirements, it is a good idea to meet them. This is important, because they will be with you from start to finish on the most special day of your life. It will help a lot if you like them! Arrange for a coffee to meet up beforehand.
- 6 TRIAL PERIOD:**
Book an Engagement Photo & Film Session. These shoots are good for a pre - wedding tester with your photographer / videographer. The bonus of this is that you can use these photos for your save-the-date cards and post them on Facebook. The cinematic video trailer can be used to add to the hype on Facebook before the wedding.

Your wedding day should be the best day of your life, and it deserves to be captured in the best possible way by your videographer / photographer to preserve it for generations to come.
